Summary

Computer Science and Information Technology graduate with hands-on experience in building full-stack web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js). Skilled in REST APIs, JWT Authentication, Java, Data Structures and Algorithms, and AI integration using Google Gemini API. Passionate about building scalable web applications and solving real-world problems.

Technical Skills

- **Programming Languages:** Java, JavaScript
- **Frontend Technologies:** HTML5, CSS3, Tailwind CSS, React.js
- **Backend Technologies:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Database Technologies:** MongoDB, Mongoose
- **Core Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)
- **Developer Tools:** Git, GitHub, VS Code, Postman
- **Additional Skills:** API Integration, Responsive Web Design, Debugging, Problem Solving

Projects

AI Interview Preparation Platform

GitHub | Live

React.js, Node.js, Express.js, MongoDB, JWT, Google Gemini API, Tailwind CSS

- Developed a full-stack AI-powered technical interview preparation platform using the MERN Stack and Google Gemini API.
- Generated role-based interview questions based on job role, experience level, and difficulty, and provided AI-powered answer evaluation with detailed feedback, performance scores, and personalized improvement suggestions.
- Implemented JWT authentication, protected routes, and MongoDB to securely manage user accounts and interview history. Built a responsive user interface using React.js and Tailwind CSS.

Authentication System

GitHub | Live

React.js, Node.js, Express.js, MongoDB, JWT, bcrypt, Tailwind CSS

- Built a secure authentication system with user registration, login, email verification, password reset, and protected routes.
- Implemented JWT-based authentication, bcrypt password hashing, and RESTful APIs to ensure secure user authentication and authorization.
- Followed the MVC architecture and integrated MongoDB for efficient user data management.

Binary Search Visualizer

GitHub | Live

React.js, JavaScript, Tailwind CSS

- Developed an interactive Binary Search Visualizer to demonstrate the step-by-step execution of the binary search algorithm.
- Implemented dynamic state updates and real-time visualization using React.js, allowing users to observe each search iteration without page reloads.
- Designed a responsive and user-friendly interface to enhance the learning experience for students practicing Data Structures and Algorithms.

Achievements & Certifications

- Solved **120+** DSA problems on LeetCode using Java.
- Maintained **25+** GitHub repositories.
- Completed **FastAPI for AI Engineers** certification (Analytics Vidhya).
- Completed a **Web Development Internship** at **CodeAlpha**, where I developed full-stack web applications using modern web technologies.

Education

B.Tech in Computer Science & Information Technology

2022–2026

Sagar Institute of Research & Technology (SIRT), Bhopal

Class XII (PCM)

2022

Govt. Excellence School, Satna (MP Board)

Class X

2020

Govt. Excellence School, Satna (MP Board)

Languages

- Hindi
- English
