🌐 LinkedIn 🐙 GitHub 🟢 LeetCode

Summary:

Computer Science and Information Technology graduate with hands-on experience in MERN Stack development (MongoDB, Express.js, React.js, Node.js). Skilled in building full-stack web applications, REST APIs, and secure authentication systems using JWT. Strong foundation in Java, Data Structures and Algorithms, and problem solving, with experience developing and deploying real-world projects.

Technical Skills:

- **Programming Languages:** Java, JavaScript
- **Frontend Technologies:** HTML5, CSS3, Tailwind CSS, React.js
- **Backend Technologies:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Database Technologies:** MongoDB, Mongoose
- **Core Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)
- **Developer Tools:** Git, GitHub, VS Code, Postman
- **Additional Skills:** API Integration, Responsive Web Design, Debugging, Problem Solving

Projects:

- **AI Chatbot** *Node.js, Express.js, React.js, Groq API*
 - Developed an AI-powered chatbot capable of generating real-time responses using the Groq API.
 - Built RESTful APIs to process user queries and manage communication between frontend and backend.
 - Implemented prompt handling and response formatting to improve user interaction and readability.
 - Designed a responsive user interface for seamless user experience across devices.
- **Authentication System** *Node.js, Express.js, MongoDB, JWT*
 - Developed a secure user authentication system with signup and login functionality.
 - Implemented JWT-based authentication and protected routes for authorized access.
 - Secured user credentials using password hashing and backend validation techniques.
 - Integrated MongoDB for efficient user data storage and management.
- **Binary Search Visualizer** *React.js, JavaScript*
 - Built an interactive visualization tool to demonstrate the Binary Search algorithm step-by-step.
 - Implemented dynamic array rendering and real-time state updates using React.
 - Enhanced understanding of algorithm execution and time complexity through visual representation.
 - Designed a responsive and user-friendly interface for better learning experience.

Achievements:

- Solved 100+ Data Structures and Algorithms problems on LeetCode using Java.
- Built and deployed multiple MERN Stack applications including AI Chatbot and Authentication System.
- Maintained 25+ repositories on GitHub showcasing web development .

Education:

- B.Tech, Computer Science & IT, SIRT Bhopal , 2026
- Class XII (PCM), MP Board, Govt. Excellence School Satna, 2022
- Class X, MP Board, Govt. Excellence School Satna, 2020

Languages:

- Hindi
- English
